SurfTab® wintron 10.1 pure

10.1" Windows tablet with Intel Inside®, keyboard case, 32 GB memory and 2 GB RAM

Our all-round carefree package is your gateway into the world of our Windows SurfTab
To ensure that using your Windows SurfTab is easy and efficient, we have included a keyboard with the wintron 10.1 pure. The Keyboard W10a included in this 2-in-1 product is ideally matched to the wintron 10.1 pure and perfectly supports the wide range of functionalities offered by Windows 8.1 Update.
A one-year licence for Office 365 Personal and an unusually wide choice of practical interfaces is also part of the newcomer tablet package. Try it out and see how the many features of the wintron pure turn the SurfTab into a handy notebook!

Build on what you know and discover something new – Windows 8.1 Update
Windows 8.1 Update was completely redeveloped to place the main focus on the user. It provides you with the unique opportunity to choose between a classic desktop view and the tile view optimised for tablets. Place the functions you need most directly on your home screen to quickly access your contacts, apps, websites and much more. This way, you'll spend less time searching and more time on the things that really matter.
If you want to go down the classic route, switch deftly to the familiar desktop view and use the SurfTab just like your home PC. Discover great apps in the Windows Store and surf the Web with the touch-optimised Internet Explorer, too.

Office on the SurfTab
Thanks to Office 365 Personal, the world of tablets, which was previously restricted to entertainment, is now becoming an efficient place to work. The impressive all-inclusive package contains a one-year licence for Office 365 Personal1, allowing use of the following programs on your SurfTab for the entire first year: Word, Excel, PowerPoint, Outlook, OneNote, Publisher and Access.
What's more, this licence even provides you with 60 Skype minutes each month as well as 1 TB of online storage via OneDrive2. And all this without any additional charges in your first year! P.S.: This licence can also be used on an additional device!

Intel Inside®…
...it's more than just a slogan. Look forward to the perfectly aligned, high-performance CPU, the Intel Atom Z3735F processor with a clock speed of up to 1.83 GHz and 2 GB of RAM. The Z3735F always operates at the right balance between performance and efficiency. When it comes to challenging tasks, it uses the full 1.83 GHz, but for easier day-to-day tasks, the processor shuts down, thereby saving energy. So let yourself be carried away by its consistent, uncompromisingly high performance and impressive battery life.

SurfTab® wintron 10.1 pure

10.1" Windows tablet with Intel Inside®, keyboard case, 32 GB memory and 2 GB RAM

We offer something no-one else does: a newcomer tablet that features the interface selection of a high-end device. Look forward to a Micro-USB socket with a host function, two cameras, a microphone for voice recording, a Mini HDMI® port to quickly and reliably connect your television, a memory card reader for microSD(HC/XC) cards with a capacity of up to 128 GB to extend the 32 GB of internal storage volume, an audio-out connection enabling the use of headphones or speakers, a keyboard dock for fast, stable connection to the keyboard, the most up-to-date WiFi standard for easy Internet access, Bluetooth for free-of-charge exchange of images and files with other devices as well as Intel® WiDi for wireless transfer of image and sound.
However, the absolute highlight has to be the fully functional USB-A socket of the wintron pure, making it possible to directly connect the SurfTab with various peripheral devices such as USB-Sticks, printers, cameras, scanners, headsets and much more!
